

Welcome to FlightPrePrep.com a links directory for Business Aviation

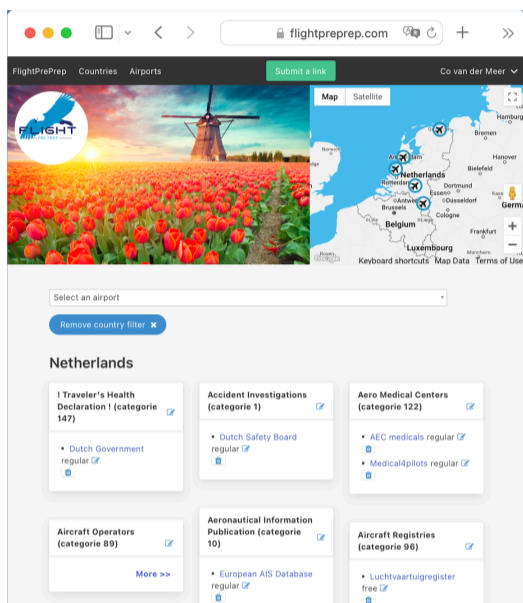

We've been involved in aviation for more than 40 years and have decided to create a links directory for crew and flight operations involved in business aviation. Our philosophy is that this information should be made freely available to the users and sponsored by the companies wanting your clientele. There is a lot of information available on the Internet but unfortunately not always easy to find. By placing these links in a more accessible format, we're convinced that FlightPrePrep will help you find this information more efficiently.

The site has the following to offer:

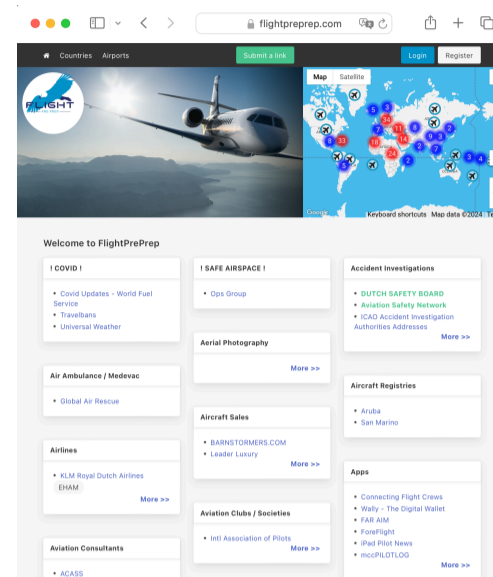

Home page:

On this page you'll find more than 120 categories with links to internet sites of companies, institutes, social media, etc. involved in aviation in some form or other.

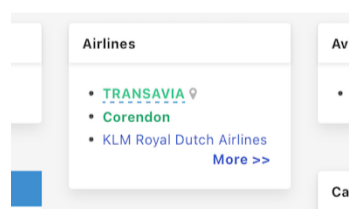

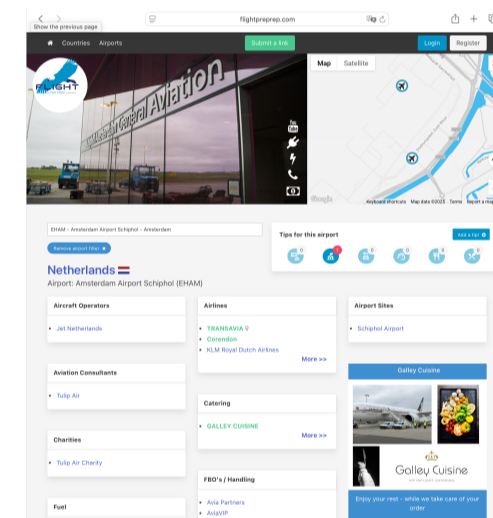

Country page:

On this page you'll find categories with Country specific information such as the Aeronautical Information Publication, Civil Aviation Authority, Brokers, etc.

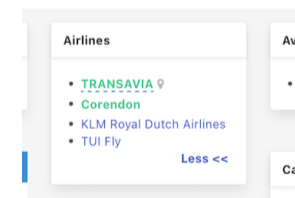

Airport page:

On this page you'll find categories with Airport specific information such as Airport Briefings, FBO's, Handling companies, Maintenance companies, Catering companies, etc. Here you'll also find a link to our You Tube channel with take-off and landing films. If you have any nice Take-off or Landing films you'd like to share with your colleagues, please feel free to send them to us so that we may add them to the site.

Finding the companies you're looking for:

The links that are directly visible have either been sponsored or which we've added free of charge for example for charities, authorities, etc. We've created an extra possibility to add additional links that aren't sponsored and placed these behind the More button.

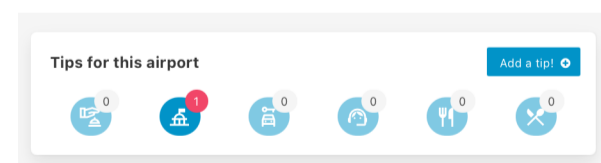

In progress:

As this is a site in development and as it grows, we'll be adding pages, such as: Jobs in Business Aviation, adding Airport webcams, Blogs, Hot News, Suggest a link, etc.

Crew participation:

As we would like crew to participate in the development of the site, on the Airport pages we've recently added the possibility to add **Tips** related to **Hotels, Things to Do, Car Rentals, Handling/FBO's and Restaurants..**

At the moment the most Country and Airport pages only have the Home page generic picture. If you have any nice pictures depicting an Airport or Country, please help us brighten up the site by sending them to us. Please use your own pictures and films to ensure we don't infringe any copyrights.

To motivate related companies to place their links and thus making as much information available as possible to you, we need to show them the number of followers, clicks etc. using FlightPrePrep! Please go ahead and help us create these numbers!!

To reach us with any suggestions, to send your films or photo's, etc., please use the following link to our contact page on the site <https://www.flightpreprep.com/contact/contact-us>

Finding your information with the least number of clicks!!

I'm sure with your help we're going to achieve our goal, helping you find the actual information you're looking for with the least number of clicks!

Thanks in advance and regards, the FPP Team
